ISURU MADUSANKA

INTERN SOFTWARE ENGINEER

As a BSc (Hons) Software Engineering student at the Sri Lanka Institute of Information Technology, I possess coding skills in Java, Kotlin, and JavaScript, along with familiarity in Springboot, MERN stack, and CSS frameworks like Bootstrap 5 and Tailwind. I am eager to secure an internship as a software engineer to contribute to meaningful projects and learn from a dynamic team, utilizing my knowledge and passion for software development.

Skills

- Java
- JavaScript
- HTML/CSS
- React
- Express.js
- Node.js
- MongoDB
- SQL
- Springboot
- React Native
- Tailwind CSS
- Bootstrap 5
- Python

Education

BSc. Special (Hons) Information Technology Specialization - Software Engineering (3.5CGPA)

SLIIT, Malabe (2021 - Present)

Pearson Diploma in Information Technology

ESOFT, Galle (2017 - 2018)

Pearson Diploma in English

ESOFT, Galle (2017 - 2018)

Advanced Level (Index No -5854890) - Commerce Stream

Mahinda College (2017)

Certifications

Meta Front-End Developer Professional Certificate (Reading)

IBM Full Stack Software Developer Professional Certificate (Reading)

Tools and Technologies

- Visual Studio Code
- WebStorm
- IntelliJ IDEA
- Postman
- Figma
- Canva

Interested in

- Full-Stack Development
- Mobile App Development
- UI / UX
- Data Science and Machine Learning
- Devops
- Artificial Intelligence

Qualities

- Lifelong Learning
- Ethical Mindset
- Handling Pressure
- Enthusiasm and Self-Motivation
- Management And Organization Skill
- Marketing

Projects

Travely – Travel and Tourism Web App (MERN stack)

I developed user registration, login, and profile management, along with admin features like user oversight and role management, all secured with JWT authentication, for our travel project.

EyeZen – Eyecare Web App (MERN stack – under development)

EyeZen is a revolutionary eye care application designed to empower users with comprehensive information and resources for preserving and enhancing their eye health.

Neighbourly – App for solution ideas to Economic crisis (Android - Kotlin)

I contributed by developing user registration, login, and personalized home page features for a project tackling rural poverty in Sri Lanka. The platform facilitates fund donations and maintains donation records for testing.

Help Desk – Java servlet project (Java)

I managed users and designed UI with UI Kit CSS in a Java Servlet project. I implemented registration, login, and profile features, enhancing my Java web development skills and creating appealing web applications.

HealthMart – Online Pharmacy management system (HTML/CSS, JavaScript, PHP, SQL)

The project's goal was a responsive online pharmacy site for web development learning. It had medication shopping, cart, admin/user controls, and CRUD operations, teaching HTML, CSS, JavaScript, PHP, and SQL practically.
